

## In respect of the environment

- Don't dispose waste;
- Avoid wastage of water and energy;
- Limit emissions from car's exhaust pipes;
- Preserve this brochure in order to be used from other visitors.

## In case of emergency

OGS is provided with an internal emergency plan, in which are defined responsibilities for fire safety and medical aid that has been trained adequately.

All buildings are equipped with fire prevention systems and first aid devices that are regularly checked. The use of these devices is reserved to trained staff.

In case of emergency it's necessary to follow staff's instructions. Locate the emergency exits nearest to you and reach with calm the external emergency assembly points, that are located in the car parks, and wait until the end of the emergency will be communicated to you.

Don't take personal belongings with you and in case of smoke cover your mouth and nose with a tissue.
